Hope H.

Anytime I have questions, APS is quick to respond, build new coding as needed, and offer an excellent tool for payroll processing.

*I have enjoyed the new tools provided and the continual motions to move forward with the software.*

The benefits I have realized are software efficiency, fast, secure processing, and storage. It's a user-friendly software that would be simple to train others without too much previous experience in payroll.

Jeff W.

## "Hands Down, APS Wins Out Over All Other HRIS Platforms."

APS is the HRIS answer we have been searching for. The unified, customizable platform offers me the ability to have time to invest in the planning and strategy of our company's long-term success.

"...offering the entire platform as unified is incredibly helpful."

With BambooHR, you have to "bolt on" the platform's usable options and pay a premium price to use those features. With APS you don't, in fact, you get all that you would expect from a larger name like ADP and don't pay an arm and a leg for it.
