Verified First

THE VERIFIED FIRST EXPERIENCE
Experience a better way of screening.

VF Connector
It's as easy as 1, 2, 3.

1. Download the VF Connector.
• • • • • • • • • • • • • • • • • •

Ask your screening vendor if they integrate with your other HR platforms.

2. Log in to the VF Connector.
• • • • • • • • • • • • • • • • • •

Open the VF Connector on virtually any web-based page and log in with your Verified First account.

3. Start screening!
• • • • • • • • • • • • • • • • • •

That's right—**you're ready to screen!** Just open the extension in your desired HR solution, and you're good to go!

Our Competition
Other screening integrations.

1. Submit a request.
• • • • • • • • • • • • • • • • • •

Ask your screening vendor if they integrate with your other HR platforms.

2. Pay a fee.
• • • • • • • • • • • • • • • • • •

Unlike the Verified First's browser extension, many API integrations have an installation fee.

3. Use additional resources.
• • • • • • • • • • • • • • • • • •

API integrations aren't a click of a button; they are unnecessarily complex. Chances are, you'll want to use additional resources, like your IT team, to get it running.

4. Wait.
• • • • • • • • • • • • • • • • • •

Wait to see if the integration was successful in your HR platform.

5. Start screening.
• • • • • • • • • • • • • • • • • •

As Etta James once sang, *at last*—you can start screening!
