

Matt Delany | CEO and President

“We are big fans of the APS platform and like the flexibility it gives us to manage our clients without separate logins. The APS team has been great to partner with and they are extremely responsive to our questions and needs. APS was more than willing to customize their system to meet our unique payroll and health benefit law needs. **With their Sage Intacct automated integration, intuitive reporting system, and single-system design, the APS platform is so easy to use.**”

Marc Linden | CFO and Head of Business Development

“Companies should choose the best-in-class solutions that best fit their business needs. The integration between APS and Intacct **provides our joint customers with a wide range of benefits to streamline processes and gain better visibility into their business.**”

Michael Seeling | Vice President

“APS has been a huge resource for our business; **their technology is cutting-edge and eliminates the need for double and triple entry of employee data.** It allows us to efficiently manage all of the Human Resources aspects of our business while on-the-go or at the office. Along with accessibility, the on-boarding process for new employees is very user-friendly and ensures that we collect all of the proper documents for our new hires; and simultaneously sets the performance reviews, so we never miss a significant milestone in the employee’s career. David Haas and his team were incredible in training and making sure my team and I were 100% running before introducing us to our service team who have become our day-to-day contacts. The service team is very responsive and knowledgeable of the software and its capabilities. APS is top-notch and has helped my business run more efficiently and should be considered when looking for a Technology/HRIS/Payroll partner.”

Mike McCorkle | Business Development Manager

“APS’s **focus on technology and service is in line with our mission,** and together we will make a significant impact on our clients’ HR processes and tax liability.”

Steve Stookey | COO

“We are very **proud and honored to work with the APS Payroll leadership team** with our results driven online training solutions that compliment HR and Payroll applications for customers today.”
