

## Terri Rowell | General Manager

“I have used this software for 6 years and it is easy to navigate. **Customer support has helped IMMEDIATELY when I had to call in.**”

## Tina McDaniel | Payroll Specialist

“The one-on-one customer service is one of the main reasons our company switched. The software is user friendly for administrators and employees. I **highly recommend APS for your payroll needs.**”

## Keli Greenberg | Executive Director of Human Resources

“Many of the payroll companies we looked at had more of a ‘department store’ approach to customer service instead of the highly responsive ‘boutique’ level of **personalized service and relationship-building culture we experienced with APS.**”

## Lindsey Rosin | Controller

“**APS customer service is top notch.** They are so helpful and you get a really quick response. You don’t ever sit on hold for hours on end and you get the **RIGHT** answer or resolution to your problem.”

## Dan Rutan | CFO

“[APS is] great. I recently purchased a hotel in Baton Rouge and they were handling the payroll for the previous owner. We looked into APS processing our payroll and **we are very satisfied with the decision.**”
