“ I don't like to waste time searching for things. I want to be able to access and develop the report I need quickly. With the layout of the APS System, running payroll and reports couldn't be easier.

## Chris Horne | Director of Finance

“ With the large payroll company we used before, we were a little fish in a big sea of customers. Whenever we had a problem or a question, we had to re-explain our scenario every time; and we never felt important. With APS, they recognize our voice when we call. They care about our mission, and the personal care we have consistently received has been exceptional.

## Millie Crites | Payroll & Benefits Coordinator

“ The APS payroll system is designed with the user in mind. Employees like the direct access, and I believe it is a time saver because it allows them to look up information without having to call our office. **It's a great system that saves time and gives our employees direct access to their information.**”
