Background screening built for speed

You *can* buy time.

We all wish we could have more time, and with Verified First you can. Let's cut to the chase and find out whether we could be a match made in the cloud!

We specialize in serving the SMB market of U.S.-based companies with a strategic partner approach—with our compliance, legal, SHRM- and PBSA-certified experts, all stateside.

If you don't see what you need on our list, we welcome you to reach out to us to see if we have it and we promise to give you a straight answer.

Our clients stick with us because we help them achieve their hiring goals: quality of hire (QoH), time to hire (TTH), and cost per hire (CPH). We're confident we can do the same for you as we've built our screening solution with these goals top of mind:

- QoH is reached with pre-built **complete screening packages**, that can also be custom-built per role.

- TTH target is achieved with time-sensitive features including a proactive **Alerts System and SMS/texting**.

- CPH goal is met with our **risk-free solution**: no contracts, no minimum usage, no setup fees, and no hidden costs.

"We have worked with Verified First for three years and have always had flawless service! I would recommend them to anyone considering choosing a background check company. Their suite of services covers all facets of background checks and their customer service and support is excellent."

—Dale Hall, HR Director at **Allen Keller**

Verified First has cracked the nut on how to deliver better experiences to organizations—one that's **faster, easier, more affordable, and more accessible**.

Sure, Verified First offers the tried and true background screening experience via a web-based portal; but to you, it may just be one-too-many disconnected systems to interact with. Why not go with what can work with the hiring systems you have in place? **Introducing:** The VF Connector

The VF Connector **browser extension** integration offers a seamless way to connect your hiring platforms with Verified First's screening solution, robust enough to look like an API integration.

COMPLICATED INTEGRATIONS ≠ AN EFFECTIVE SOLUTION.

Verified First's browser extension is available in *your* preferred web browser when you're ready.
